Subject: Stop the Harasement of Microsoft

Dear Sirs/Madames:

I am writing to express my strong objection to the US Governments continued waste of time and money harassing Microsoft.

I don't know that I find all of their business tactics honorable but I strongly beleive this case is much more about competitors trying to ask for help as opposed to the Government protecting consumers.

I watch in amazement as other operating systems companies such as Apple release new verisons of their operating system with addiitonal free software bundled in (iPhoto, iTunes, iDVD, etc)and they are applauded for bringing more features, convenience and benefit to users. At the same time is chastised and sued for trying to deliver the very same types of advances and benefits to consumers.

As a citizen of this country I am appaled at the blatant manipulation of the US Government by Microsoft's competitors.

Sincerely;
Bob Roberts
